The Walker Light Guard Outing—The Returning Howitzers.

The Walker Light Guard, Captain Frank W. Cunningham, are busy making preparations for their trup to Ocean View. It was the intention of the company to go down in a special car attached to the requisition, but so many applications to accompany the guard have been received from ettress and members of other companies that it is probable that a separate special will be chartered for the trip to the sea and theek.

Pep-loe, and Clopton, for the plaintiffs, and Stiles and DeSaussure, for the defendants. The court held the demurrer good on the ground of lactes, that whilst the bill stated a good case for equivaler relief, yet the plaintiffs had delayed two long in taking action for relief against the al-leged fraud practiced on them. The right to an appeal was reserved by counsel, a stay of ninety days granted, and bond for the appeal fixed at \$100.

THE EMMETT KILLING. No External Examination Could Be Made by Dr. Chalkley.

That the death of the Emmett family was due to lightning is a thing which seems to be generally accepted. Dr. Taylor, who only saw the house the day after the calamity and did not see the bodies at all, did not agree with Dr. Charles H. Chalkley as to the course of the stroke. The latter did see the remains of the people, but did not have a look at the dwelling into which the fatal stroke evidently forced itself.

Dr. Chalkley, intalking with a Disparcing

pic, but did not have a look at the evidently forced itself.

Dr. Chalkley, in talking with a Disparch reporter yesterday about the catastrophe, said: "I always take it that in a case like this toul play should be suspected until it is proven differently; therefore I was very anxious to make a very careful external examination of the Emmett bodies, and if necessary go into a post-mortem. The Coroner's jury refused to allow the corpses to be taken from the coffins, so I could only make an examination of one head. I then went to the Acting-Coroner and told him that I could not give a medical opinion in the case unless I could make a post-mortem. He referred me to the Commonwealth's Attorney, and I had a talk with this official, assuring him that I would make no charges and would bear all the expenses of such an investigation; but I was again refused on the grounds that the jury had deended that it was a case of deaths by lightning, and it was of no use to make further explorations into the affiair. All that I could do, then, was to infer from the testimony given and what little I had seen that the people had been killed by an electrical stroke. This opinion was based upou these points, which were plain and indisputable: First, rigor mortea; second, heat of the bodies; third, their blackness; fourth, fluid blood; fifth, slipping of the skin, and sixth, the attending circumstances as told by the witnesses."

Fellow-Countrymen Fight.

Feomaso Giertano, an Italian shoemaker rosiding near the corner of Eighteenth and Broad streets, became engaged in a quarrel with a fellow-countryman named Jose, b Caravatti vesterday and dealt the latter several blows on the head with an iron last, inflicting ugly and painful, though not serious, wounds. The scalp on the top of Caravati's cranium was badly lacerated, and one of his eyes presented the appearance of an egg-plant. Geortano was arrested and will be given a hearing by Justice Crutchfield this morning. It is said that the defendant rents his house from Caravatti and that the disturbance grew out of a disagreement in regard to settlement.

He was treated and taken to her home, on Twenty-first street between Main and Franklin. At 5:30 P. M. to John R. Cary's store, to a colored man suffering with cramp. He was treated and taken to his home, 718 north Ninth street.

Elec ric-Light Shade.

Since the big electric lights have been suspended on Franklin and Grace streets, many porches have been made as bright as day and many eyes pained by the glare. A gentleman on Grace street has for the purpose of mitigating this evil invented a shade, and last evening had it in place on one of the lights, much to the amusement of passers-by and to the comfort of those on the porch. It is reported that the inventor will ask for a patent, and will prosecute any person who imitates his electric-light shade.

> FRANCE'S POPULATION SHRINKING Encouragements to Early Marriages and

Census returns have shown that there has been a very slight increase in the population of France, and that in certain departments there has actually been a marked decrease in the number of the inhabitants. The question has attracted a great deal of attention from political economists and others, says the London Dally Telegraph, and a remedy has just been suggested by M. Le Roy in the form of a bill, which he has laid before the Chamber. The honorable member, who takes a very pessimistic view of the prospect, maintains that the native population has really diminished of late years, and he attributes the cause, in a great measure, to the fact that the average of marriages is only 7 for every 1,000 inhabitants, and is far less than in England, Germany, Austria, Russia, and some other countries. Lurge Families. Granite Council, No. 29, Legion of Red Cross, at Smith's Hall this evening at 3:15 sharp. A full attendance is desired. Mrs. Joseph R. far less than in England, Germany, Austria, Russia, and some other countries.

With a view to bringing about a more satisfactory state of things he proposes that persons over 21 years of age who might intend to enter into the bonds of wedlock should no longer be compelled to ask their parents for their consent; that married men or widowers with incomes of less than £240 per annum should be partially exempted from taxation, according to the number of the children of which the families are composed, and that bachers and spinsters possessed of more than

to the number of the children of which the families are composed, and that bachelors and spinsters possessed of more than \$120 per annum should be obliged to make up the deficiency.

Among other suggestions brought forward by M. Le floy is one to the effect that after serving with the colors for a twelve month young soldiers should be permitted to return home if they were found to have made good use of their time. If, however, on attaining the age of 25 they were still unmarried, they should be compelled to go back to their regiments and serve the remainder of their term in full. Such is the remedy proposed by M. Le floy to counteract a state of things which is viewed with some apprehension. It is, however, only one among a series of measures which have been suggested and abandoned as impracticable. What reception this particular bill will meet at the hands of the Chamber remains to be seen. but in its present form it has little chance of being adopted.

SOMETHING LIKE A NUGGET. Over One Hundred Thousand Dollars i One Lump of Gold.

[San Francisco Examiner.] Francisco Examiner.]

Frontier highwaymen would have had a hard time wrestling with a bit of gold which arrived here by Wells, Fargo & Co.'s Express a few days ago. It came from the celebrated Harqua Haia Mine, and was consigned to J. Hubbard and J. B. Bowers, the owners of that property, for coining at the United States mint.

When the employees of the mint took a look at it they were astounded. The reason was that it was the biggest lump of gold they had had the unhappiness to come in contact with, seeing that it was in one respect like many others, being not their own.

It was of a somewhat conical shape and seemed to have been emptied out of a

asemed to have been emptied out of a gigantic slag-pot. It did not belie its looks, for that was the way it had been shaped. It was the product of torty-five days' run at the Harqua Hala, and the tremendous bulk weighed 357% pounds avoirdupois, and was stated to be of the value of \$120,000. The deeds of bargain and sale recorded in the Clerk's office of the Chancery Court yesterday were as follows:

The thoughtful representatives of the owners of the bug nugget telegraphed from point to point as they progressed with it to the mine, sixty miles southwest of Phenix, and announced when it should arrive at the next station. This was in order to forestall any ambitious men with guns, for, though aspiring highwaymen were thus kept exactly posted as to when the gold might be expected, it also posted the people in each town.

The nugget was too big for any party of bandits to carry it off intact and secrete, and had they stooped the caravan on the way to the railroad they would have only had time to chisel off a thousand dollars or so till the pack of bloodhounds, which the prison officials keep at Phenix, would have been on their trail. Nobody molested it, therefore, 'and it reached here safely The ponderous yellow cone has attracted much attention.

A JEWISH DIVORCE.

A Religious Ceremony Is Necessary to Make It Complete. [St. Leuis Globe-Democrat.]

Make It Complete.

[St. Leuis Globe-Democrat.]

A Jewish writ of divorce, which is something, never seen before in the State of Georgia, will be issued Sunday by Dr. Farber. The circumstances of the case are as follows: A few months ago a Jew named Sam Cohen came to this country and located in Monticello. He came from Copenhagen, Denmark, where he deserted his wite. After his departure from Copenhagen his wife sued for a divorce in the courts of Copenhagen, and obtained it under the law of that country, but that was not sufficient. The canons of the Jewish Church require a religious as well as a legal divorce before a person already married can be married again. Mrs. Cohen, cognizant of this fact, told her story to the chief rabbi of Copenhagen, who wrote the entire circumstances to Dr. Farber, of this city, and asked him to obtain the consent of Mr. Cohen, and next Sunday the writ will be issued.

For several reasons the issuing of this document will be very interesting. The canons of the Church provide that the documents must be written in the Oramiac language, and this in itself is a novelty to the people of this country. The fact that this is the first document of the kind ever issued in Georgia also adds interest to the issuing of it. As soon as the writs issued it will be legally and religiously free from her present husband. Dr. Farber has authority to issue the document, in that any rabbi has the power to do so under the laws of the Church. \$6.498.

AN INHUMAN WRETCH.

Execution of a Mexican Bandit Who Tortured His Victims. (By telegraph to the Dispatch.

Regarder to the Dispatch.]

Zacatroas, Mrx., July 22.—In the little mountain town of Tialtenango, this State, Candelarie Perez, one of the most inhuman and desperate criminals of Mexico, was yesterday shot to death by due process of law. Perez was a man about 40 years of age, and had for the past three years been the leader of a band of brigands who have kept the people of Tialtenango in a state of constant terror.

Three weeks ago Ramon Morales and Carmen Pluvo, two prominent merchants of that place, started an overland journey for Zacatecas. They had in their possession \$300 with whien to buy goods in the city for their store. They were attacked by Perez and his band. The merchants made a brave resistance, killed three of the bandits, and wounded Perez in the arm. The brigands finally overpowered them, and by direction of Perez both merchants were taken to the rendezvous in the mountains and there horribly tortured. Their fingers and toes were cut off one by one, and then they were fied to stakes and a fire built around them, which slowly roasted them to death.

An Alleged Absconder Returns.

[By telegraph to the Dispatch.]

Pine Bluff, Ark., July 22.—J. G. Kelso, the reputed absconder and president of the Bank of Magnolia, Ark., and vice-president of the Ouachita-Valley Bank of Camden, Ark., and of the Gate-City Bank of Texarkana, Ark., passed through here yesterday evening on his way home from French Lick Springs, Ind. He stated that the accusation to the effect that he was a defaulter in the sum of \$79,000, taken from the three banks, was a falsehood. He intends at once to bring suits for damages against his accusers, and for libel against the newspapers which printed the reports,

Hope for Colonel King.

[Washington Evening Star, 22d.]

A new hope has been born in the breas of Colonel H. Clay King, condemned to beinged on August 12th for killing David. Foston in Memphis. For several day he has been in a state of mental a.ld physical collapse, but yesterday he brightene from some cause known only to himsel The strong petition sent from Kentuck to the Governor asking that his sentence be commuted is thought to have begotten

preme Court.

The lawyer refused to discuss the matter, but it is thought from remarks that he dropped that there will be some action taken in the case by the Federal court.

Mrs. King is securing signatures to a petition praying for a commutation of the sentence, but the friends of the murdered lawyer are receiving numerous signatures.

THE CANYON MASSACRE Horrible Alleged Discoveries of Outrages by Idaho Miners

(By telegraph to the Dispatch.)

connection with the Mission affair wherein it was reported that many men were shot, others wounded, some robbed and their bodies disposed of in such a way that no clue either to the perpetrators of the outrage or the disposition of the bodies has ever been found. On the part of some it has been persistently denied that any one was killed at Fourth of July Canyon. Others are positive that the horrors have not been half told. This much is true beyond doubt—that on Tuesday evening after a car-load of non-union men had passed through Wardner and gone to Mission nine men, evening after a car-load of non-union men had passed through Wardner and gone to Mission nine men, members of the Miners' Union, left Wallace on a hand car to follow them; that at Wardner they changed the hand-car for a flat-car, and taking more men with them pushed on to Mission; that suddenly the sounds of many guns being fired filled the air and the non-union men fled precipitately; that one man, Abbott, who is now here in the hospital, was shot; that Abbott heard the pursuers say: "Let's kill them and throw their bodies in the river," and that quite a number of men are missing yet.

nen are missing yet. The authorities are making an investiga The authorities are making an investiga-tion. It is reliably reported that the au-thorities have full details and proof of the crime committed there. Ashes supposed to be human bodies are undergoing chemi-cal examination. It is almost certain that dark and bloody deeds will be brought to light. The perpetrators are now in the stockade here. The officers are reticent.

Crisis in Cotton Trade. [By Anglo-American cable to the Dispatch.]

[By Anglo-American cable to the Dispatch.]

London, July 22.—A crisis is threatened in the Lancashire cotton trade. The Federation of Master Cotton-Spinners recommends that a 10 per cent. reduction be made in the wages of operatives and that the mills be run on short time. It is thought that the Amaigamated Association of Operating Cotton-Spinners will refuse to accept the reduction in wages, and that a strike or lock-out will follow. Only a short time ago a general lock-out lad to be settled in the Lancashire cotton-mills.
